PORTFOLIO 2021

I have a passion and understanding towards the automobile field, technically as well as design aspect. So I find design as a great way to inovate and rejoice. The constant urge in me to create something and contribute to the automobile industry made me consider modelling and sketchng a great skillset. So I always have a fun in learning them. So I'm looking forword for a challenging and creative job environment so that I can serve my best to the firm as well showcase my talent.
